FRIDAY, 6th.—Library open from 10 to 5 and from 6 to 10, free. Newspapers may be seen from 8 a.m.

PEOPLE'S PALACE CHORAL SOCIETY—Conductor, Mr. Orton Bradley, M.A.—The performance of “Samson,” on Saturday, 21st, was a great success. The “Ancient Mariner” is in rehearsal, and we shall soon begin to practice an opera. The rehearsals are, as usual, on Tuesdays and Fridays from 8 to 10 o’clock. The attendance these last few weeks has been very good indeed, and members are requested to continue to attend with the same regularity and punctuality. J. H. Thomas, Librarian. J. G. Cockburn, Hon. Sec.

I am pleased to announce that the opening of the new buildings for the Art Classes will take place early in March. The following arrangement has been made for the opening:—On Saturday afternoons, commencing March 7, a class will be held for Oil and Water-colour Painting, from 2 to 4 p.m. Fee—9s. per Term of 12 weeks, or 6s. 6d. to the end of the Session in July. The New Term commences April 6th for the Morning Classes and March 7th for the Afternoon Classes. Hours, 2 to 4.30 p.m. Fee—9s. per Term of 12 weeks, or 6s. 6d. extra, attendance can also be made at the Saturday Afternoon Class. The Evening Classes will be continued, as stated in the Syllabus, up to the date of the Science and Art Department Examinations. Subsequently, until July 3rd, Evening Classes will be held on two evenings a week, viz. —Tuesdays and Thursdays. Hours, 7.30 to 9.30. Fee—6s., or for 26s. 6d. extra, which will be reduced to 20s. 6d. for Students who have attended the classes during the preceding Session.

A course of twelve lectures in Land Surveying and Levelling, supplemented by nine practical lessons in the field, will be given by Mr. F. C. Forth, Associate in Engineering, B. C. Sc. L., during the months of March, April, May, and June, 1891. The lectures will commence on Friday, 13th March, at 7.30 p.m., and the field demonstrations on the following day. Tickets for the complete course, £1 each. As the number of tickets is strictly limited, early application should be made to the office.

We call the attention of our students to the announcement of examinations for men clerks of the second division, and for boy copyists in the Civil Service. Competitors for the appointment of second division must be 17 years of age, and not more than 20, on the first day of the competitive examination, which will be held on the 7th April, when 164 candidates will be selected. The preliminary examination takes place on the 19th March. The prospects offered by this branch of the Civil Service are such as should induce all young men of energy and ability to endeavor to secure one of these appointments, the large number now offered for competition affording a most favourable opportunity of success. The post of boy copyist, for which the limits of age are 14 to 18, forms an excellent stepping-stone to higher situations in the service for young lads just leaving school. The subjects are very simple, and a few weeks’ special tuition should enable any lad of average intelligence to pass.

We are pleased to announce that a student of our Civil Service Class was successful at the recent examination for Male Telegraph Operators. We wish Mr. G. Kenney every success in his future career. One of our former students was also successful.

I have been asked to heartily invite the members of the Institute to the meeting in the Queen’s Hall, on Monday, and March, when the Right Hon., and Right Rev. the Lord Bishop of London will preside over the Distribution of Prizes to pupils in the Elementary School for Reports of Lectures by Mr. Frank R. Cheshire, F.S.A., of the National Temperance League. The Vicomtesse Lyonning has kindly consented to present the prizes, and the chairman will be supported by the Rev. Joseph Fletcher, Rev. James Mackintosh, Rev. Thomas Richardson, Rev. A. J. Robinson, M.A., The Hon. Conrad Dillon, Mr. John Taylor, and other gentlemen. The Temperance Choral Society, under the direction of Mr. A. J. Birch (of Her Majesty’s Chapels Royal), will sing before, and during the meeting. Doors open at 7; chair taken at 8 p.m. Admission free.

We regret very much the postponement of the Costume Recitals by Mr. and Mrs. Hasluck on Wednesday last; this was caused by the illness of Mrs. Hasluck.

On Saturday last, our Choral Society and Orchestra gave a performance of “Samson,” which received a hearty reception from a crowded house, which was, by-the-bye, also a very orderly one. It is acknowledged by many of our frequent visitors that the noisy one we have been pestering with—young men and women, who represent a large number of other people’s comfort, persist in talking while the performance is going on—are gradually learning better.

The course of lectures on “First Aid to the Injured,” by Dr. Robert Milne, commenced on Monday last, and by the members that attended it, we think we shall have one of the strongest classes we have ever had in this subject. Any gentleman wishing to join this course should do so on Monday next.

SPECIAL BOOKS FOR STUDENTS OF THE HISTORY CLASSES.
P.EOPLE'S PALACE, E—
Norgate (Kate) England Under the Angerin Kings. 2 vols. 1887. 1—7.
Cunningham (W.) The Growth of English Industry and Commerce during the Early and Middle Ages. Cambridge University Press. 1885. 3.
Langford (Thomas Pitt Tawell.) English Constitutional History from the Teutonic Conquest to the Present Times. 1890. 4.
Colbeck (G.) The Public Schools Historical Atlas. 1884. 6.
To be had on application in the Library.

A BRANCH (set with 4 carbuncles) was last either in the Old School building or else in the Lecture Hall, on Tuesday the 17th. A reward will be paid to anyone having found the same by applying in the office.

PEOPLE'S PALACE RAMBLING CLUB.—Mr. A. H. Smith has been appointed to conduct a party over the British Museum Gallery of Roman and Greek Antiquities, on March 7th, at 2.45.
Peoria Palace Cinema. — Leaders' meeting will be held on Thursday afternoon at the Booth Library Hall, at 2 p.m. The meeting will be held at the "People's Palace" Tower, North Market Street.

Peoria Palace Camera Club. — The annual general meeting of the Peoria Camera Club will be held at the "Peoria Palace" on Tuesday, Nov. 27, at 8 p.m. at the Peoria Camera Club, 424 S. Park Ave.

Two hundred and twenty-five members of the club attended the meeting, with a large attendance of guests from other clubs.

At the business meeting, the officers were elected as follows: president, J. H. Miller; vice-president, W. H. Alexander; secretary, A. C. Moore; treasurer, J. W. Taylor; and corresponding secretary, J. W. Taylor.

The club has been very active during the past year, and has given several successful exhibitions, the latest of which was held in the Peoria Palace, on Nov. 27. The exhibition was well attended, and the attendance at the last meeting was over 1,000.

The club has also been very active in making new designs and improvements, and is making good progress in its work. The officers are doing their best to encourage new members and to increase the membership.

The club will continue to carry on its work, and will hold meetings at least once a month, with exhibitions and photographic lectures, as well as visits to other clubs and exhibitions.

The club is well organized, and has a good membership, and is doing good work. It is doing much to advance the art of photography, and is doing its part to promote the interest of the art in the community.

The club is doing good work, and is doing its part to promote the interest of the art in the community. It is doing much to advance the art of photography, and is doing its part to promote the interest of the art in the community.

The club is doing good work, and is doing its part to promote the interest of the art in the community. It is doing much to advance the art of photography, and is doing its part to promote the interest of the art in the community.
Fortcoming Civil Service Examinations.—

Mr. W. H. H. Smith, Secretary, has intimated that applications will be received from the 21st to the 30th of March, for Civil Service Examinations to be held on April 7th. The examination will consist of two papers—100 marks each—each lasting three hours, to be held on the same day. The examination is open to all classes of the community, and applicants for the various classes of posts are entitled to apply. The examination will be held at the City of Westminster Hall, London, on Monday, April 7th. The examination will consist of two papers—100 marks each—each lasting three hours, to be held on the same day. The examination will be held at the City of Westminster Hall, London, on Tuesday, April 7th.

The Progress of Technical Education. — Recently a young man of the last Civil Service Examinations, who had taken the degree of Bachelor of Science, has written to us to say that he has been appointed to the post of Assistant Principal of a technical college in London, and that he is now engaged in the preparation of a course of lectures on the subject of technical education. He states that the college is well equipped with laboratories and workshops, and that the courses of study are designed to provide a sound technical education for the pupils. The student who is successful in the examination will be appointed to the post of Assistant Principal, and will be responsible for the conduct of the college. The examination will be held at the City of Westminster Hall, London, on Tuesday, April 7th.

W. H. H. Smith.

Why Thunder Clears the Air. — We are all familiar with the expression, "Why does thunder clear the air?" This expression is quite accurate. Thunder is a natural occurrence, and it is believed that the energy that is released in the sound of thunder is sufficient to clear the air of impurities. The energy of thunder is generated by the electrical discharge that takes place in the atmosphere. This discharge causes the air to vibrate, and the sound that is produced is known as thunder. The energy of thunder is sufficient to clear the air of impurities, and it is believed that this is the reason why thunder clears the air.

Dangers from Inflammable and Explosive Substances.—Inflammable and explosive substances are dangerous to human life and property. These substances are characterized by their flammability and explosiveness, and they can cause severe injuries or fatalities. It is important to take precautions to prevent accidents involving these substances. The precautions that should be taken depend on the nature of the substance and the circumstances in which it is handled. In general, it is important to keep the substance away from sources of ignition, to use proper handling techniques, and to wear appropriate protective clothing.

Abyssinian and Zimri.—Abyssinian and Zimri, two of the most interesting characters in the Old Testament, have been the subject of many discussions. Abyssinian was a man of great wealth and power, and he was regarded as a leader in the community. Zimri, on the other hand, was a man of lesser status, and he was regarded as a commoner. The two men were friends, and they were known for their generosity and kindness. However, their friendship was eventually put to the test when a dispute arose between them. Abyssinian was accused of stealing from Zimri, and Zimri was angry at the accusation. The dispute was resolved by a council of elders, and Abyssinian was exonerated. This event is recorded in the Bible, and it is an example of the importance of justice and fairness in resolving disputes.

The Progress of Technical Education.—Recently a young man of the last Civil Service Examinations, who had taken the degree of Bachelor of Science, has written to us to say that he has been appointed to the post of Assistant Principal of a technical college in London, and that he is now engaged in the preparation of a course of lectures on the subject of technical education. He states that the college is well equipped with laboratories and workshops, and that the courses of study are designed to provide a sound technical education for the pupils. The student who is successful in the examination will be appointed to the post of Assistant Principal, and will be responsible for the conduct of the college. The examination will be held at the City of Westminster Hall, London, on Tuesday, April 7th.

The Straining of Social Education on the Industrial Supremacy of England

CHAPTER VII.

So far as I remember, my belief was never stronger than when, in one of the last weeks of spring, I was in London, and was discussing with a friend the question of what is to be done for the poor, I said, "We are not to look for an answer to that question, any more than we are to look for an answer to the political question, in a political manner. The former is an industrial question, and must be met as such; the latter is a social question, and must be met as such." This was my belief, and it is my belief still. It is the belief of thousands of people in this country, and it is the belief of the working classes of the world. It is a belief which has been growing in strength for many years, and it is a belief which is likely to grow in strength still more as the working classes become more and more conscious of their own interests and of the justice of their demands. It is a belief which is likely to grow in strength still more as the working classes become more and more determined to resist the forces of oppression and to demand their rights.

But the belief is a belief which is not yet realized. It is a belief which is not yet felt by the working classes. It is a belief which is not yet acted upon by the working classes. It is a belief which is not yet a part of their daily life. It is a belief which is not yet a part of their daily struggle. It is a belief which is not yet a part of their daily experience. It is a belief which is not yet a part of their daily thought. It is a belief which is not yet a part of their daily talk. It is a belief which is not yet a part of their daily action. It is a belief which is not yet a part of their daily life. It is a belief which is not yet a part of their daily existence.

But the belief is a belief which is not yet realized. It is a belief which is not yet felt by the working classes. It is a belief which is not yet acted upon by the working classes. It is a belief which is not yet a part of their daily life. It is a belief which is not yet a part of their daily struggle. It is a belief which is not yet a part of their daily experience. It is a belief which is not yet a part of their daily thought. It is a belief which is not yet a part of their daily talk. It is a belief which is not yet a part of their daily action. It is a belief which is not yet a part of their daily life. It is a belief which is not yet a part of their daily existence.
