The total attendances on Sunday last at the library, Sacred Concert and Organ Recital, were 1,028.

During the preceding week we have had frequent visits from the Governors, who have kindly visited the People's Palace. Mr. Heywood, Rev. Edwyn Hoskyns, Mr. Sawyer, and Mr. Simson, have all been present during the evening, and have watched many of the classes and entertainments which were in progress.

The number of students in the evening classes continues to increase at a wonderful rate. There are already 3,300 students—bear excellent testimony to their own ability and the instruction they have received.

The class in the so-called "Practical Mathematics," which is intended to give students in electrical engineering and other subjects the mathematical knowledge they require, has so far been very successful. This is very encouraging, as there is no greater obstacle to a student's progress than a want of the elements of mathematics. Even the fact that to some it is an uninteresting subject should not deter them in their studies when they remember its great importance. We wish the class every success.

In the whole of the time devoted by Mr. Bradley, Mr. Hamilton, Mrs. Spencer, and Mr. King to instruction in the Piano-technique, there are not more than half a dozen places vacant, and many students, we fear, have been disappointed in not being able to obtain the instruction they desired. Mr. Jackson's new class in Harmony already contains eighteen students, and the older musical classes have largely increased in numbers.

The Director of Evening Classes is giving instruction in Mathematics above Stage II. on Thursday and Tuesday evening, and in "Honour" Physics on Wednesday. The elementary class in Sound, Light, and Heat has been changed into an advanced one in Light, as there was found to be a greater demand for this subject. It is hoped that during the coming session some physical apparatus will be obtained, so that students may be able to perform experiments for themselves.

The Letterpress Class has largely increased in numbers, and we are glad to say that Mr. Alexander will shortly have ample apparatus for explaining and illustrating his subject. The Photographic department is, as usual, in a very satisfactory state under the able and energetic management of Mr. Gamble.

TYPEWRITING.—The class at the People's Palace promises to be one of the largest in London. Already there are twenty-three pupils. Miss Leoline Hartley, the instructor, who is well known as a writer on the subject, is particularly successful as a teacher of the art of type-writing.

TECHNICAL SCHOOL RAMBLERS' CLUB.—On Saturday, the 1st October, 25 members met at the Royal Exchange with the intention of visiting the Greenwich Hospital. At the appointed time for starting, 4.45, there was such a steady downpour of rain that it was asked whether the visit had not better be postponed, but the almost unanimous opinion was against this. Consequently we went to the Swan Pier and embarked on a steamboat, which was stopped during the accident, and when the rain simply poured, and long before we were in sight of Greenwich the clothes of those who were without umbrellas or overcoats were saturated. In such a condition enjoyment was scarcely to be expected, so we agreed to return to London Bridge without leaving the boat. A man was done, the majority getting home as soon as possible. On Saturday, October 8th, about 45 members paid a visit to the headquarters of the London Fire Brigade, Southwark. Arriving there at 10.30 we were received by the chief of the station, and by him placed under the charge of an officer who acted as our conductor. We were shown the very clever contrivances for opening the doors of the engine-house, the stables where two horses are always kept harnessed, and were told that the time from the sounding of the alarm to an engine starting from the station averaged about a minute—this, too, in the night, when most of the men would be sleeping in their beds. We saw also a number of men who had been killed or injured whilst on duty. These comprised, among other things, helmets, coats, trousers, and other clothing, with a jet of water into a window opening, it frequently is a dangerous and difficult operation. Captain Symonds' invention is a nozzle that can be turned through any angle by a man standing at the foot of the ladder. The horse being carried to the required height, is fastened to a ladder. The man, with a lever at the bottom can turn the nozzle in an horizontal direction. We were taken into the control room, where the telephones, which are in connection with all the chief stations of the metropolis. Calls were made and some of our members were allowed to hear the answers. Meanwhile the fire alarm was sounded, the doors opened without hands, horses came through the openings and were harnessed to engines, and the men mounted already for a start. This usually in the day time takes about 30 seconds to do.

People's Palace Old Boys' Football Club, Laurel.—Despite the unfavourable weather the Old Boys were able to muster a very good team on the ground of the latter, atHackney Downs, the Old Boys being without the services of their captain, H. Phillips. At position of each team that faced each other, were: Old Boys—Baines (goal), E. Langdon and A. Skinner (backs), A. Ogston, F. Birkett, and R. Toyne (half backs), E. Burton, M. Myers, A. Clement, A. Howell, and S. Edmonds (forwards). Laurel—W. White (goal), J. Webb and T. W. Newell (backs), G. Harding, L. Nicholson (captain), and G. Morgan (half backs), A. Clark, A. Lucas, T. A. Nichols, W. August, and S. Clow (forwards). Reference toms (Old Boys). Langdon won the toss when he took advantage of the wind. The Old Boys were able to play before the first twenty minutes, when the Old Boys got the upper hand, and Clements, from a pass by Birkett, registered the first goal of the match,
with a very fast low shot which White failed to save. After this, play was most exciting, the home team playing hard for a penalty kick, which Clements took in front of goal and gave the Old Boys two goals ahead. Just after White was kicked out, Burton and Toyne; after a few minutes further was registered up to half-time, Toyne and Oughton being very fine players. Toyne of the Old Boys' goal, and nearly scored, the ball going behind each time. Swifts. Will members meet at Bow Final : Old Boys, 5 goals; Laurels, 0.

CLUB

SCHOOL OLD BOYS' CLUB. — The annual general meeting of the above club was held in the Law Courts, October 14th, and Mr. H. Baines, E. J. Burton, S. Beirne, E. E. Baines, H. J. Burton, S. A. Burrow, B. Carter, T. G. C. Clements, E. C. Clements, R. L. Hampson, A. C. Fleet, A. H. White, E. T. Jones, E. R. King, E. K. W. Gregory, G. W. King, W. H. White, Entertainment manager, G. W. White, Secretary; and F. J. W. Gregory, Treasurer. It was suggested by the secretary that the club should hold a swimming competition on Saturday, October 22nd, and that the committee, with general approval, and was decided that it be a free event, and that members wishing to enter must give their names within four days to the secretary. After no thanks to the chairman the meeting terminated.

SUNSET, 16th of OCTOBER, 1892.

Organist ... ... Mr. B. JACKSON, P.C.O. (Organist to the People’s Palace).

At 4 p.m.

THE PEOPLE’S PALACE SUNDAY AFTERNOON

CHOIR.

Vocalist—MADAME RICH.

1. SONG ... ... Anthem—HADDON.

Across the far blue hills, Marie,

The mellow noony looks wistfully,

And fields in spring are early sown.

This last, last time for many a year.

Over hills of blue, love Marie.

Across the far hills, love Marie.

From distant lands beyond the sea,

We twain shall meet on earth no more.

All men are not gay deceivers,

When drawing nigh to this loved place,

Round the bar of heaven, Marie,

Till God shall bid us come to thee,

The strains of all its holy throng, with ours to-day are

And cheer me, while I linger here,

Hymn

Psalm cxix., 1.

Blown with the gale of spring.

Come away, come away, pretty maiden.

The doors will be kept closed during the performance of each number on the Programme.

The Audience is cordially invited to stand and join in singing the Hymn.

SERIES OF COMIC OPERA NUMBERS.

Hurlah! hurrah! Ah! from peril we rescue,
No wonder that we're victors in every case.
We're aye ready to respond to our country's call.

With this we must ever be the first in love and bravery.

And fisher lads are beings.

When naught but an angry word
Remorseful, self-chiding, she wonders,
Recalling sweet moments, she ponders,
And Marjory's wheel is at rest.

In the gloaming, when stars shyly,
Beckon nature to rest in night's
Keeping, nature to rest in night's

With bent form a gipsy comes creeping,
With dark form a gipsy comes creeping,

When day has done her reign,
Across the bay.

Then Robin no longer deceiving,
Haste thee home across the foam,

And fisher lads are beings.

My bonnie boat to me.
Haste thee home across the foam.

The maid, as hope triumph's o'er,
Oh! where is that brave bonny

No wonder that we're victors in every case.

That the maiden for him had been
Then Robin no longer deceiving,

With dark form a gipsy comes creeping,
With bent form a gipsy comes creeping,

Who long ago, beside the shore,
And there's a fisher laddie

Go, soft evening breezes, and waft to
When naught but an angry word
Remorseful, self-chiding, she wonders,
Recalling sweet moments, she ponders,
And Marjory's wheel is at rest.

In the gloaming, when stars shyly,
