THE PALACE JOURNAL.

FRIDAY, OCT. 7th, 1892.

PEOPLE'S PALACE.
Club, Class and General Gossip.

COMING EVENTS.
FRIDAY, Oct. 7th.—At 8 p.m., in Queen’s Hall, Entertainment by Mr. W. E. Burton.
SATURDAY, 8th.—Winter Garden open from 6 to 10 p.m.
SUNDAY, 9th.—Sacred Concert at 4 p.m., and Organ Recital at 8.30 p.m.
MONDAY, 10th.—Winter Garden open from 6 to 10 p.m. Popular Lecture on Dissolving Views by Mr. G. Wilson-Hall and Mr. A. R. E. Burton.
TUESDAY, 11th.—Winter Garden open from 6 to 10 p.m. Concert Party at 8 p.m. Admission, 1d. Swimming Entertainment at 9 p.m. by the members of the P.P. Young Women’s Swimming Club. Admission, 3d. Reserved Seats, 6d.
WEDNESDAY, 12th.—At 8 p.m., in Queen’s Hall, Entertainment by Mr. Stewart C. Cumberland. Admission, 2d. Students of P. F. Classes admitted free.
THURSDAY, 13th.—Winter Garden open from 6 to 10 p.m. Mr. Robinson’s Military Band at 8 p.m. Admission, 1d.
FRIDAY, 14th.—The library will be open each day during the week from 10 a.m. to 5 p.m., and from 6 p.m. to 10 p.m., with the exception of Monday, 20th, when it will be closed from 1 p.m. Newspaper may be seen from 8 a.m. On Sunday from 3 p.m. to 10 p.m. Admission free.

The total attendances on Sunday last at the library, Sacred Concert and Organ Recital, were 3,564.

The Governors have decided to keep the Swimming Bath open during the winter months, or until further notice. It will be open from 8 a.m. to 9 p.m. on weekdays, and from 8 a.m. to 10 p.m. on Sundays.

The evening classes are now in full working order, and the attendance promises to be larger than in any previous year. Up to the present number of entries is several hundreds above that at the corresponding period of last session, while the clerks are still kept quite employed receiving the times of fresh students.

The Palace Journal.

In the bookbinding class, we regret to say that many would-be students have been disappointed. The Governors, on hearing of the number of applicants and the request of many who desired to join the class, decided on starting a second class on Thursday evening. This, however, was insufficient to contain all who desired to avail themselves of Mr. Tuckett’s instruction. We trust, however, that next session we shall have a larger supply of apparatus, so that a greater number of students can be received.

A Spanish class has been started under the direction of Mr. Lishman, which, to judge from the number of applicants for its formation, should be very successful. Mr. Lishman has large experience in commercial correspondence, besides knowing the language well for other purposes. The class meets on Thursday evening at 7.30 p.m.

The engineering workshop is already full, but those connected with the trade who desire to join will do well to leave their names at the office. Should any vacancies occur later in the session they will be communicated with, and will have the first opportunity of joining. Several new machines have been purchased and will shortly be available for use in the workshop.

The Machine Construction and Drawing Class promises to be very successful in spite of the absence of Mr. Forth. On the opening evening Mr. Archer’s construction delivered from the point of view of a practical man was listened to by a class as large as last year’s, and we doubt not Mr. Archer will have many more pupils before the session ends. Should the elementary class increase to any extent another class will be necessary.

We are glad to find that a considerable number of students have entered for chemistry, especially the advanced. The importance of this subject is so great and its applications so numerous that we are amazed more students in the past have not availed themselves of the excellent laboratories provided by the governors.

In the Electrical Department we were much struck by the earnestness of the students who were listening to Mr. Slingo. There is a great opening for electrical engineering, and signs are not wanting that its importance is being appreciated.

We would remind teachers in Elementary schools that Mr. Robertson is conducting a class specially for their benefit in manual training. Mr. Robertson is an examiner in carpentry and joinery for the Board of Schools.

Mr. Spratt is instructing a small but earnest and business-like class in brass finishing and instrument making; while Mr. Burrell seems to have been successful in imparting his energy and enthusiasm to his students in geology. We look forward with confidence to the future of both these classes, and wish their teachers every success.

Among the other classes, shorthand is very popular; the entries for one class in this subject being over 60, while some of the other commercial classes have a large number of students. We shall hope next week to refer to the work done by other departments.

Mr. Orton Bradley is anxious that a slight mistake which has been made in the “Syllabus” should be corrected. The works he proposes to study and perform this season are the standard works “Messiah” (Handel) and “Elisabeth” (Mendelssohn), besides Barnett’s “Ancient Mariner,” and Rossini’s “Stabat Mater.” For new works he has decided on Handel’s “Israel in Egypt,” as some oratorio choruses, Mendelssohn’s “Athalie” in the spring quarter, and, if possible, the light opera, “Les Cloches de Corneville,” by Flauque.

The first practical examination in Cookery was held in the kitchen of the People’s Palace, on September 28th, and resulted in the students passing as follows:

Diploma Class—
Miss E. M. Jager, 1st class.
Miss Henrietta W. Stephen, 2nd class.
Miss Emily M. Speed, 1st class.
Miss Marion G. Barnes, 1st class.
Miss Sybil M. Sheerman, 1st class.
Evening Students—
Miss E. Forrow, 1st class.
Miss L. Forrow, 2nd class.
Miss E. Warres, 1st class.
Miss E. Sturcke, 1st class.

The examiner was Miss Dawson, from the National Training School of Cookery, and lecturer to the National Health Society, who declared herself highly satisfied with the work done by the students.

The plain and fancy bread made by the pupils of the Diploma Class looked most tempting. The small dishes of rissoles prepared by one of the pupils of the Evening Class was excellently done, and was especially noticed by the examiner.

The Theoretical Examination for the students of the Diploma Class will be held on Saturday, October 8th, from 2 p.m. to 5 p.m.

The Annual Swimming Display by the members of the Young Women’s Swimming Club will be held on Tuesday next, the 11th. Miss Richardson will preside. The members of the men’s club will also compete for the championship of the school during the evening.

On Monday next, in connection with our popular lectures, Mr. G. Wilson-Hall (ex-M.P. Victoria), and Mr. A. R. E. Burton will give an account of life on the gold fields, and in the bush, with some thrilling incidents of colonial life, illustrated with lime-light views. These are to be given by some gentlemen who distributed genuine nuggets of gold in Easter Hall. It is to be hoped they will repeat the operation here.

Queen Mary, University of London Archives, QMC/PP/14/14 October 7 1892
PARK UP FOR THE SEASON

On October 7, 1892.

The Palace Journal.

Atletics in Theory and Practice.

By C. W. Allcock

(From the Sporting Times.)

FOOTBALLERS will be glad to peruse an article by Mr. H. H. Dickson, the new secretary of the Football Association, in the Sporting Times, in which he has explained the rules of the game for the season. The new secretary is a man of great experience, and his article is a useful guide to all who are interested in the game.

The following is an extract from his article:

"The object of football is to score goals, and the team that scores the most goals in the least time is the winner. The game is played by two teams of eleven players each, and the object of the players is to keep the ball in play as long as possible, and to score goals by kicking the ball into the opponent's goal.

"The game is played on a rectangular field, with two goals at each end, and a centre point in the middle of the field. The ball is kicked from the centre point to the opponent's goal, and the team that scores the most goals in the least time is the winner.

"The game is played by two teams of eleven players each, and the object of the players is to keep the ball in play as long as possible, and to score goals by kicking the ball into the opponent's goal."

The article goes on to explain the rules of the game in detail, and is a useful guide for all who are interested in the game.
Mr. STUART CUMBERLAND will select experiments such as he alone has performed actually with the following, amongst countless other illustrious and famous personages:

The Queen Regent of Spain: the Murder Tablet.
The King of Denmark:

The Princess of Denmark, various experiments.
The Crown Prince of Greece.
The Duke of Cumberland: the Murder Tablet.
The Comtesse de Paris: a Complex Experiment.

Mr. CUMBERLAND will also relate his Personal Impressions of the many famous Men and Women he has met.

SPECIAL NOTICE—Miss BENTLEY's experiments are performed upon scientific principles, and without any claim whatever to magnetic force; and as such are, showing how force can be directed, of considerable scientific interest.

ADMISSION—TWO PENNY.

STUDENTS OF THE PEOPLE'S PALACE ADMITTED FREE.

To the island of San Domingo there is a remarkable salt mountain, a mass of dry earth for the sake of the vegetable matter it contains and forming as ten tons of earth per annum on an area 500 by 100 feet. It is rather more easy of digestion than the wild one.

Science Settings.

The doors will be kept closed during the performance of each number on the programme.

QUEEN'S HALL OPEN ON SATURDAY, OCTOBER 27TH, 1894.

ADMISSION FREE.

There's whiskeys in the air;
Oh! wray's throo! my Biddy,
I'm gone far away.
Over hills and over mountains,
Across the big bay.
We're going to hang the lassie on the top of the sky,
And I'm in the boat that's bound for death or glory.

Here's whisky in the jar;
Oh! wray's throo! my Biddy,
I'm gone far away.
Over hills and over mountains,
Across the big bay.
We're going to hang the lassie on the top of the sky,
And I'm in the boat that's bound for death or glory.

What it is to admire and to love,
I know what it is to have strove
With arrah, arrah, arrah,
On land and on the sea.

Ye shepherds so cheerful and gay,
Whose flocks never carelessly roam,
'Neath the spreading linden tree,
At the moonlit hour,
O'er the western tow'r.

There's whisky in the jar;
Who turned up his noble nose with scorn
Who turned on her heel and tripped
It's a song of a merry maid once so gay,
Now the drums are beatin' boldly,
There's whisky in the jar.

Gymnastics.

Fees, 4d. per week, including locker.

FOR YOUNG MEN.

MONDAY.—9 till 3.30, Mondays, Wednesdays, Fridays,
Tuesday.—9 till 10.
Wednesday.—9 till 10.
Thursday.—9 till 10.
Friday.—9 till 10.
Saturday.—9 till 10.
