**PEOPLE'S PALACE CRICKET CLUB.**—The match on Saturday last resulted in a win for the Palace team by the narrow margin of 4 wickets. The Palace batted first and made 41, G. Sheppard being top scorer with 14. The Victorians were only able to make 37, a total which would have been smaller but for the chances accepted. Garden. We anticipate the pleasure of seeing the band under the direction of Draper's Court, to which he is going, one of the officials of the Governors at the gathering.

The even classes during the time of Mr. Clement Watson, the head of the 50th Middlesex Artillery Volunteers, have had the good fortune of being under the command of Colonel E. J. Stevens, who has now retired from the command and has three drill stations, situated on one at Eltham, another at Clapham, and the third at Down, Kent. These Drill Stations are composed of various ranks, and they will shortly be equipped with the most modern and field equipment. Drill is carried on every night throughout the year, and the result is that the present rank is the summer very impressive and active. At Whitmore Park, the corps occupies barracks and has a large hall and a gymnasium, and the corps is well organized and equipped for the drill season. The officers also give yearly valuable prizes for shooting and good attendance.

In a few days we hope to be able to announce definitely that the Government have decided to close the volunteer drill stations, and we trust that the services of one of the oldest teachers of military science in the United Kingdom can be utilized.

"RED RIDING HOOD"
CANTATA by J. ASTOR BROAD.

PART II.

Chorus.

Sweet, gay, lively, boundless sound,
From our sports we gaily go;
In our happy hours to know
Your career has so far been ours;
Therefore we join in this song;
We would love better with you.

Would you know, my pretty maiden ?
Ah, your mother's oft told you
That you love better with you
Do you love butter !

Chorus.

Solo (Red Riding Hood). Where flowers scent the cooling breeze,
Where youthful hearts are blithe and
Come, boys and girls, O come with me.

Your voice, in its sweetness like tones of
The birds may be singing, and flowers be
And linger not, darling—go straight on

Solo (Wolf). Where are you bound, my pretty miss,
Where have you been that long time?
I love to hear the falling oak,
The forest monarch grand,
The children gathered in Red Riding
And away to our home,
We're happy to-night, we can sing with
The sweet and the good, our own Red

Oh happy are we to-night!

Egyptologists profess to have discovered that the penny-in-the-slot machine was in common use in the days of the Pharaohs. By this we understand that whatever of destroying, or injuring, or being injured by lightning, or being the cause of damage to shipping. Of all the dangers that beset the seaman, thunder and lightning have been the most frequent cause of damage to shipping. In the last quarter of the last century and a third, in the year 1809 to 1815, no fewer than seventy cases of serious damage to ships of the British navy were entirely crippled completely by lightning as to defy extinction, with the result that those on board who were not killed by the electric discharge generally lived their lives being burned in the boats before they had reached the finished state. A crooked rule of about forty centuries has been discovered by Mathew, in the shape of an Egyptian will. The document must go to the next highest bequest pro rata. It is said to be so modern in form that it is attributed to Mr. Godfrey Marks, a lawyer of that name, who has been in favour of his brother, a priest of Osiris, and one of the early Egyptians, women had the right of holding property in their own name.
