The total attendances on Sunday last at the library, Sacred Concert and Organ Recital, were 3,563.

A CLOAK-ROOM is provided for the use of students every evening in the basement of the building, for the purpose of leaving their bags, umbrellas, etc., an attendant will be in charge to take care of same.

The skating rink has been re-opened for the season, from 6 p.m. to 10 p.m., and from 6 p.m. to 10 p.m., with the exception of Monday, 26th, when it will be closed from 1 p.m. Admission free.

PEOPLE'S PALACE AMATEUR BOXING CLUB.—The annual general meeting for election of officers, etc., will be held in the Palace Club-room, at 9 p.m., on the 5th Oct. All present and intending members are requested to attend.

S. DONALDSON, Assist. Sec.

PEOPLE'S PALACE RAMBLING CLUB.—A party of five visited Purfleet on Saturday last, and had a very enjoyable ramble. Friday, October 7th, half-yearly general meeting, to receive report and balance sheet, to receive members' subscriptions, and appoint officers for the ensuing year. All students of the Palace are invited to attend this meeting at 8.15 p.m. Saturday, October 8th, a blackberry ramble to Mrs. Guy's, Buckhurst Hill. Train leaves Coborn-road 7.30. Notice.—To those students who desire to go, own personal and intellectual amusement on Saturday afternoons, we beg to recommend the above club. The subscription is nominal, being 2s. per annum. The object of the club is to visit places of interest in and around London, to gain general information, and to increase social intercourse amongst the members.

A. MCKENZIE, Hon. Sec.

We have again beaten all previous records in entries for our classes, and have now over 2,000 students entered for this season's work; considering that the classes only commenced work on Tuesday last, we have every reason to be proud of this result.

The conversation came off on Monday last, and proved a "red letter" day in the history of the Palace; between 3,000 and 4,000 persons attended; a full report shall appear in next week's Journal.

Gleanings—Grave and Gay.

Our Cycling members will be interested to know that a company has been incorporated with 100,000 dols. capital stock for the purpose of erecting near the World's Fair, Chicago, a 75,000 dols. club-house, which shall be maintained during the Fair as head-quarters for wheelmen from all parts of the world. The better the building will become a central club-house for the League of American Wheelmen. The project is approved by members of the National Association.

Our young women cannot do better than write to Moffatt and Paige, of 28, Wardwick-lane, E.C., for their packet of greetings cards, tastefully arranged for embroidery work. They make, when worked, exceedingly nice presents, and are very cheap—16 cards, with as many different designs, for eightpence.

Horner's Penny Stories for the People.—Popular; there is no gain-saying that, when it is stated that many of them have run into such astounding numbers as upwards of a quarter of a million copies. Nor is this to be wondered at, for the Compulsory Education Act must, during the Fair, be read byyelectronic and printed books, and thus they are very cheap-16 cards, with as many different designs, for eightpence.

### The World of Science and Invention.

It looks as if the nineteenth century would leap into the past without producing a single original invention. The invention of the electric train almost as old as the hills, and now some entrepreneur applies electricity to the carriage of goods. We are told that the penney-the-box machine was in constant use in America.

Furniture—how the proper proportions are taken, ships at sea are in no danger of being wrecked by the winds. Of all the dangers that beset the seaman, lightning is the only one that can be guarded against with perfect thoroughness. It is not possible, however, to adjust the most complete protection from the electric fluid, before this fact was known. The electric fluid is a very frequent cause of damage to ships, in the last quarter of the last century. In those days, there were three hundred cases of damage to ships of the British navy from lightning. In the present age, seamen have their own system of protection for vessels of our navy were entirely crippled by running aground on a breaker, the adhesion being strong enough to hold the vessel stilly; for vessels to be set on fire so com­
