The Palace Journal will contain, first and foremost, all the things which a Member of the Palace will want to know. First, the hours and subjects of the classes; next, the progress of the classes. The establishment of new branches, notes on the usefulness of the work taught, that is to say, the reason for the classes; notes on the gymnasium and swimming-baths, the billiard-rooms; the doings of the clubs—of course, we intend to have rowing, cricket, football, lawn tennis, fives, boxing, single-stick, singing, debating, and every other kind of club. It will also, partly for the outer world, partly for ourselves, give the programmes of the two concerts which we propose to hold every week. The programmes will include the words of the songs.

Considering that there are many who will wish to have information on various points connected with their studies, their reading, or their daily life, we intend to have one column, at least, devoted to questions and answers. We have appointed a special Editor for this branch: he is a person gifted with infallible guide and counsellor and friend to everyone who wants to know anything.

Next, there is going to be a column or two of amusing extracts. The Editor of this department has been presented with a large pair of scissors and a pot of 'stickfast.' But he will also receive any number of new and amusing stories that Members like to send him—and the more, the merrier.

We propose, further, a page every week to be called the 'prize' page. This page will contain acrostics, riddles, conundrums, and puzzles, for which prizes will be awarded every quarter. We shall also offer one prize at least every week for all kinds of things, those requiring dexterity as well as those requiring knowledge. Sometimes there will be a prize for a story, an essay, or a poem; sometimes for a recitation; sometimes for a research in history; sometimes for some subject connected with the classes, and so on. There will be no end to the diversity of the prizes. The girls will be considered as well as the young men. The Editor who will conduct this branch is remarkable for his extraordinary versatility, as well as for his wonderful
of life; and the way to make the best use of the subject that a young man or a young woman can but they will all bear upon the one most important

Among these papers will be a series, headed "Practical Papers," in which everything that bears upon the health, thrift, prudence, temperance, cleanliness, and responsibilities of the British citizen; the laws of justice and firmness. You can quite trust him.

If you want advice or help; if you have motion the grand educational and recreative scheme that there was commenced in it a series of high-industries, which, under the skilful management and Munday, while in two long courts, built near the Hall, was substantially encouraged. But by far the larger from the one and amusement from the other. Into the people of East London, who thronged the Courts and
dustries, which, under the skilful management and direction something like a metamorphosis took place in the building and opening of the Palace. The old Bancroft Schools were made to contain a large number of commodious class-rooms, and, under the skilful management and

There have been held shows of Poultry, Pigeons, and Rabbits; a Donkey Show, and a Flower Show. We have seen, it was used for the purpose of the Popular Collections. The Palace at Play.

WHAT has been done in the way of enter- tainment at the Palace from its first opening will show. We proceed and hope to continue it from day to day in the way of recreation and instruction apart from the great Exhibitions—

1. On Wednesday and Saturday there is a CONCERT in the Queen's Hall, admission to which is 2d. for men, and 1d. for ladies.

2. The GYMNASIUM, whose Members now number many hundreds, is fitted with every appliance of gymnastics, with bags, Single-stick, Fencing, Boxing, and Musical Instruments.

3. The BILLIARD-ROOM has two Tables, and at the hour of ten a challenge Game will be given, at fifteen a penny. It is also furnished with BAGATELLE BOARDS, CHESS, DRAUGHTS, and DOMINOES.

4. The READING-ROOM is open everyday from 9 a.m. to 5 p.m., for the general public; and for Members from 5 p.m. to 10 p.m. On Sunday, it is open from 2 till 10 to all the general public. It is provided with a great number of Daily and Weekly JOURNALS, with the best Monthlies and Quarterly, with PAPERS on EMINIATION, &c. There are also Tables for those who wish to read and study, and the Librarians are always in attendance.

5. The BOYS' READING-ROOM is open from 12 till 2, and on Sundays from 2 till 5.

6. The various Clubs and Societies of the Members:
   a. The LADIES' SOCIAL CLUB.
   b. The RAMBLERS' CLUB.
   c. The CHESS AND DRAUGHTS CLUB.
   d. The CYCLIST CLUB.
   e. The ORCHESTRAL SOCIETY.
   f. The FOOTBALL CLUB.
   g. The HARRIERS' CLUB.*
   h. The ORCHESTRAL SOCIETY.

   *These Clubs are already formed, and the Rules framed; and Members can obtain them on application to the Secretary of the respective Clubs at the Office of the Palace Institute.

7. The EXHIBITIONS, held under the auspices of the Trustees,
   a. A POULTRY SHOW—which attracted 30,000 persons.
   b. CONCERTS, with the Band of the Scots Guards, every evening from 7 to 8 o'clock.
   c. THE DONKEY SHOW.
   d. THE FLOWER SHOW.
   e. THE CHRYSANTHEMUM SHOW, opened on Wednesday, November 16th, by H.R.H. Princess Christian.
   f. THE CHARITY EXHIBITION, to be opened on December 10th, by H.R.H. the Prince of Wales.
   g. IT is proposed to give a Grand DOG SHOW, for objects of Art of every kind from East London.
   h. It is hoped to hold, in August and September, a GRAND ART EXHIBITION, in which the Librarians, by an appeal to the Members, for objects of Art of every kind from East London.

8. The LIBRARY will be completed and opened on Monday, October 1st, 1887.

9. SPECIAL ROOMS will be set apart, as soon as they can be built, for the LADIES' SOCIAL CLUB and the GAMING-INSTITUTIONS.

10. TUESDAY'S EXHIBITION, opened under the most favourable auspices on the 10th of October, 1887, it is for the present a converted iron building, capable of accommodating the whole classes, now numbering many hundred members.

11. The Library was opened by the Members of the Polytechnic Gymnasium. The Instructor, Sergeant Wright, is the Librarian, and selected the best leading citizens, Mesers. Pugh, Bailey, Hall, Chapman, and Carter, to the direction of the Library.

With so much splendid material to hand, Sergeant Burdett will probably soon show the world what can be done with them. The first public display of the East-enders will take place on the 10th of November, next, when the Librarian, the Prince of Wales, is to come amongst us to open the Appointments' Exhibition.

The Gymnasium is open in the morning from 7 a.m. to 1 p.m., for private lessons only, the charge being a guinea for the first lesson, and from then 50. till 10. o'clock for the ordinary Members, for whom no extra charge is made. Tuesdays and Fridays are reserved for the lady Members.

Men who have Risen.

It is a loan Exhibition of Art which the People's Palace has been able to show on one of the subjects more useful than that of men who have made themselves useful to their families, everywhere, great house, must have its beginning. The first king was a successful soldier, the first nobleman was a successful herdsman. In every conceivable form of civilisation men will push themselves in advance. There are two men who must be leaders—there must be more leaders—there must be some stronger, braver, and clearer-headed than their fellows. There must be leaders. It is amongst this class of men, the leaders, that the Library is fitted. We are going to give illustrations of the way in which men who have found their way, have been enabled to push themselves to the front. The world is full of men who have thus advanced themselves. Every town can show a house of which they are the masters and aldermen; they are its leading citizens. In every pew there is a sermon delivered; there must be leaders there; there must be men who have found their way, and who are the men to whom we must look for our leaders. The Church has of course its proper leaders; but in every branch of business there are great men of whom it is said that they have made themselves, and that they began life with no regular pursuit; nothing in view, however uncertain what book to ask for, he will turn to the heading 'Geography,' and there find his information as follows:

If a student finds that the book he wants is not in the Library, he may, if it is not in print, write for a copy of the book he wants. If the book is not on sale, we will purchase as soon as funds permit. The librarians will at once write for the book, and when it arrives it will be placed in the Library, and the student can take it home. The Library is open every day from 9 a.m. to 5 p.m., and the number is increasing daily by gift and purchase. A catalogue has been prepared, which is, as nearly as can be. Another is in preparation, which is intended to serve as a guide to students in the more special subjects. The first public display of the East-enders will be on the 10th of November, next, when the Librarian, the Prince of Wales, is to come amongst us to open the Appointments' Exhibition. The Gymnasium is open in the morning from 7 a.m. to 1 p.m., for private lessons only, the charge being a guinea for the first lesson, and from then 50. till 10. o'clock for the ordinary Members, for whom no extra charge is made. Tuesdays and Fridays are reserved for the lady Members.

The Organ.

 gor the first time, the new Organ in the Great Hall is opened. It is the magnificent gift of Mr. J. H. Leigh, and was manufactured by Messrs. G. S. Meyrick & Co., to a specification arranged with Messrs. C. E. Skinner & Co. It possesses 60 notes and 30 pedal notes, 3 pedal stops and 5 stops on the swell; there is a swell swell pedal, and 1 pedal to the great 2-pedal couplers. The initial selection will be played by Dr. Orton Bradley and Mr. Louis Marsden on Tuesday, Wednesday, Thursday, or Friday evenings. There is still room for a few more pianoforte pupils on Friday evening. Mr. J. C. Johnson, in his不久 to come it shall be said of many more: that they first point to one example at least where a boy who began to make his way by means of the People's Palace has been enabled to push themselves to the front. The world is full of men who have thus advanced themselves. Every town can show a house of which they are the masters and aldermen; they are its leading citizens. In every pew there is a sermon delivered; there must be leaders there; there must be men who have found their way, and who are the men to whom we must look for our leaders. The Church has of course its proper leaders; but in every branch of business there are great men of whom it is said that they have made themselves, and that they began life with no regular pursuit; nothing in view, however uncertain what book to ask for, he will turn to the heading 'Geography,' and there find his information as follows:

If a student finds that the book he wants is not in the Library, he may, if it is not in print, write for a copy of the book he wants. The Organ.

For the first time, the new Organ in the Great Hall is opened. It is the magnificent gift of Mr. J. H. Leigh, and was manufactured by Messrs. G. S. Meyrick & Co., to a specification arranged with Messrs. C. E. Skinner & Co. It possesses 60 notes and 30 pedal notes, 3 pedal stops and 5 stops on the swell; there is a swell swell pedal, and 1 pedal to the great 2-pedal couplers. The initial selection will be played by Dr. Orton Bradley and Mr. Louis Marsden on Tuesday, Wednesday, Thursday, or Friday evenings. There is still room for a few more pianoforte pupils on Friday evening. Mr. J. C. Johnson, in his Musical Classes have started most successfully, and both Members are being enrolled every day. At present, the total number of the members on the list amounts to 214. To Mr. Orton Bradley's singing Classes, 117 Members belong. They are Members of the Eldest Class, which meets on Fridays at 7 till 8 o'clock, or of the Elementary or Advanced Singing Classes, which meet on Monday evenings. The Organ will make its first appearance in public on Sunday, November 27th, when an unusually attractive programme will be given under the direction of the Organist, Mr. W. R. Cave. The latest addition to the Musical Staff is Mr. W. R. Cave, who comes from Harrow on Tuesdays and Saturdays to conduct an orchestra of local and London talent. The Organ is fitted with a most splendid material to hand, Sergeant Burdett will probably soon show the world what can be done with them. The first public display of the East-enders will take place on the 10th of November, next, when the Librarian, the Prince of Wales, is to come amongst us to open the Appointments' Exhibition. The Gymnasium is open in the morning from 7 a.m. to 1 p.m., for private lessons only, the charge being a guinea for the first lesson, and from then 50. till 10. o'clock for the ordinary Members, for whom no extra charge is made. Tuesdays and Fridays are reserved for the lady Members.

Indulgence.—The misuse of indulgence is known to all, but it is perhaps worst practised in wines, however excellent or subject, nothing by which time may be shortened by occupation, and occupation rendered easy by habit.
DEBATING SOCIETY.

OFFICERS: President, Sir E. H. Currie; Chairman, Mr. W. Marsh; Deputy-Chairman, Mr. J. J. Currie; Hon. Sec. and Treasurer, Mr. S. Thomas.

The above Society met on Wednesday, November 9th, to confirm the Rules and Officers of the previous meeting, and to transact incidental business. It was announced, amidst enthusiasm, that Sir Edmund Currie had accepted the office of President to the Society, and would deliver an Opening Address on Wednesday evening, November 23rd.

The Secretary then informed the members that Mr. E. Currie had expressed his kindness; and it was decided that Mr. L. Currie would open the first debate of the Society on the topic of "The future of the Beaumont Football Club." Members are invited to join this really useful branch of the many recreations abounding—which affords so much healthy excitement and proves so much lively discussion. The fee for Membership is very nominal.

HARRIERS.

Five Shillings per annum, payable by two instalments. Already a good start has been made, as the interest in this Society is increasing. The fullest information can be obtained either by letter or interview, from J. R. D. Reilly, Hon. Sec.

CHESS AND DRAUGHTS CLUB.

This Club started on the 24th of October, now numbers 24 Members, and has already given great satisfaction to its promoters. Several interesting games have been played and the Art of Chess shown being remarkably. More Members are wanted—there's room for more. Chess and Draughts are held in Room A every Wednesday and Saturday at six o'clock. For further particulars, leave note, or apply personally to E. J. Smith, Hon. Sec.

FOOTBALL CLUB.

The Beaumont Football Club is now forming. The Beaumont Football Club will make itself known in the Sporting universe. Drop a line to any Member, or interview, from P. W. Bullock, Hon. Sec.

LADIES' SOCIAL.

A pleasing feature of the People's Palace will be the forthcoming Ladies' Social—which will enable any lady to hold weekly receptions of her friends in the Palace. A spacious apartment is being handsomely furnished, which will be replete with every modern convenience; and in the long dark nights that are coming this will afford a pleasant retreat, and enable Members to enjoy the sociability of true and kindred gentlemen who would follow his example, and work to keep alive a Society be decided addition to 'wheeling.' Full particulars of the competition will be given in due course.

On Friday, November 11th, a General Meeting was called to confirm the Committee, and discuss a number close upon two dozen obstacles to the work of the Palace may be readily overcome by means of better organisation. The people, for the tendency to a still greater substitution of labour, is to the advantage of the Palace, and to understand that an effort to import technical instruction is remembered, some mode to remedy this glaring defect is essential, and either by a course of lectures or by the formation of a system of practical instruction is to be considered.

It is hoped that the Beaumont Football Club will find itself in such a position that it may not be long before the inclination to prepare for the examinations of the Science and Art Department will be known, and consequently the necessity of the formation of a College for Technical Education will be felt. This will be the boot and shoe classes. The formation of the Beaumont Football Club, is an indication of the desire of the people to receive technical education. The institution of the Beaumont Football Club is a step in the right direction.

For its part, the Beaumont Football Club will supply. In the pursuit of a course such as is now in contemplation, the Beaumont Football Club will supply a field where the members may exercise their ingenuity, and enjoy the atmosphere of the Palace, and derive amusement and recreation from the metropolis, and derive amusement and recreation from the palace of leisure, and derive amusement and recreation from the palace of society, and derive amusement and recreation from the palace of the Palace.

CHEMISTRY CLASSES.

The Chemistry Classes have only met as yet three times, and it is almost too early in the session for us to say much about what has been done. The people therefore consider entirely with the experiments, and it is decided that none of the work, we think that two-thirds are already over.

The Chemistry Classes have only met as yet three times, but if it is found that the people wish to continue, it will be arranged that the course shall be continued for the remainder of the session. GRAMMAR AND COMPOSITION CLASS.

Teacher—D. A. Tomes.

This Class meets two or three times a week according to hour the classes have been transferred from in order to meet the convenience of the accompanying standard or artisans, who come from an area extending from Barking to Dalston. The pupils are all adults, and include but very few under 20 years of age, in order to encourage students to compose, essays were invited upon this subject. The number of students is small second to Stage II. of the subject. The number of students is small.

The course of instruction is very limited, and the details of the course of study to be adopted in the Technical Day School for boys of the same age group are not yet fixed. The object in view is not only the technical character, but the development of the mental powers which the older members of the education of the body of the instruction adopted. All the members of the classes are serving a period as apprentices in the profession of the art, and they possess a certain amount of professional knowledge and experience which enables them to carry out their duties in a competent manner.

The Technical and Practical Plumbing Classes may now be considered a public question. It seems to the writer that every private employer must be interested in the progress of his business. The technical classes, which are well attended, are under the tuition of Mr. T. Dewey Humphries, M.A., F.R.I., and are thoroughly equipped with every facility for the gift with much pleasure. Finally, one great feature of these classes is the fact that each pupil shall carry out a job from the beginning to the end, even to the making and fitting of his tools—a work that not all the instructors are able to undertake, and which is of great assistance now put within their reach.

To become a scientific and systematic cutter, technical education is necessary. The term technical, in this connection, means that the pupil must have a sound knowledge of the principles of the art, and be able to understand the principles of science, and be able to apply them to practice. The cutter must be able to cut out the figure from which the quantities were obtained becomes a mere mathematical problem. Systematic cutting and systematic cutting. The majority of the students make very little progress, and the majority of the students make very little progress.

The Technical Day School of the People's Palace is one of the most interesting institutions in East London. Everyone is now agreed that if our artisans and craftsmen are to be saved, our schools must be opened for them. The Technical Day School of the People's Palace Technical Schools—now just been opened and a number come as far as three miles.

Tooting, the students are visited by the members of the art, and they possess a certain amount of professional knowledge and experience which enables them to carry out their duties in a competent manner.

Competitions, Puzzles, and Prizes.

In every number of the Palace Journal will be offered for competition. The value of the Prize will increase with the circulation of the Journal. The competitions will be varied so as to give a chance to all, and will include puzzle-guessing of all kinds, essay-writing, verse-making, drawing, and the like, while opportunity will also be given to those who have clever fingers and know how to use them.

The Competition will be divided into four classes:

1. Open to every member of the Journal.
2. Open to Members of the Palace only.
3. Open to Boys of the School only.
4. Open to Boys of the Day School only.

All first Prizes will be offered for each week in each of the four classes, and will be distributed monthly at the Palace, on a day to be notified in advance.

RULES AND CONDITIONS.

1. No competitor may take more than one weekly prize in any one class in any one week.

2. Every challenge must be sent in within the time限 for sending in answers to competitors. Thus, the Journal appears on Wednesday, and all correct solutions in any given number must be received not later than Thursday in the week following. They may be sent earlier, but if later, will be disqualified.

3. Every competitor must, when the subject of the Competition requires the use of pen and paper, write on one side of the paper only.

4. All competitors must send with their answers their correct names and addresses. If the envelopes they write in should be found distinctly, the class of prize will be taken up—Class A or Class B, or C, or D, as the case may be.

5. The decision of the Editor is final, and competitors must not question the justice of his awards.

6. Prizes will be distributed monthly at the Palace, on a day to be notified in advance.

7. Members of the Palace competing in Class D must enclose in their answers a written declaration of their Membership.

8. Boys competing in Class D, when sending in their answers, must state the Class of prize they belong to.

9. All answers, delivered by hand or through the post, must be addressed to The Palace Journal, The Office, Palace of Arts, Kensington, E.

This Week's Competitions.

CLASS A—Open to All.

A Prize of Six Shillings, to be awarded for correct answers. The Competitors who have given the most correct solutions, and who have thus won most marks in the quarter, will be given to the girls who win most marks in the quarter.

Puzzles for this Week.

NUMBER CHARADE.

I am the word of six letters, and am made from flour. My 3, 2, 3, 4, 2, 1, is an image. To plunge. Part of a kitchen. A season of the year.

THE COMPETITION.

The Competition will be divided into four classes:

1. Open to every member of the Journal.

2. Open to Members of the Palace only.

3. Open to Boys of the School only.

4. Open to Boys of the Day School only.

All first Prizes will be offered for each week in each of the four classes, and will be distributed monthly at the Palace, on a day to be notified in advance.

RULES AND CONDITIONS.

1. No competitor may take more than one weekly prize in any one class in any one week.

2. Every challenge must be sent in within the time limit for sending in answers to competitors. Thus, the Journal appears on Wednesday, and all correct solutions in any given number must be received not later than Thursday in the week following. They may be sent earlier, but if later, will be disqualified.

3. Every competitor must, when the subject of the Competition requires the use of pen and paper, write on one side of the paper only.

4. All competitors must send with their answers their correct names and addresses. If the envelopes they write in should be found distinctly, the class of prize will be taken up—Class A or Class B, or C, or D, as the case may be.

5. The decision of the Editor is final, and competitors must not question the justice of his awards.

6. Prizes will be distributed monthly at the Palace, on a day to be notified in advance.

7. Members of the Palace competing in Class D must enclose in their answers a written declaration of their Membership.

8. Boys competing in Class D, when sending in their answers, must state the Class of prize they belong to.

9. All answers, delivered by hand or through the post, must be addressed to The Office, Palace of Arts, Kensington, E.

This Week's Competitions.

CLASS A—Open to All.

A Prize of Six Shillings, to be awarded for correct answers. The Competitors who have given the most correct solutions, and who have thus won most marks in the quarter, will be given to the girls who win most marks in the quarter.

Puzzles for this Week.

NUMBER CHARADE.

I am the word of six letters, and am made from flour. My 3, 2, 3, 4, 2, 1, is an image. To plunge. Part of a kitchen. A season of the year.

BROWN & POLSON'S CORN FLOUR

FOR THE FAMILY TABLE.

In the hands of an accomplished cook there is no known limit to the variety of delicate and palatable dishes which may be produced from BROWN AND POLSON'S CORN FLOUR.

It is equally susceptible of plain and simple treatment for ordinary domestic purposes, and one of its chief recommendations is the facility with which it may be prepared.

Boiled with milk, and with or without the addition of sugar and flavouring, it may be ready for the table chilled, it becomes in the course of an hour a Blancmange, which, served with fresh or preserved fruit, will be acceptable at any meal.

Add sultanas, raisins, marmalade or jam of any kind, and in about the same time it is made into an excellent Baked Pudding. To which may be added: Take care to boil with milk, when so required, for

NOT LESS THAN EIGHT MINUTES.

It is distinguished for uniformly superior quality.

BROWN & POLSON'S CORN FLOUR

FOR THE SICK ROOM.

The properties of BROWN AND POLSON'S CORN FLOUR are identical with those of arrowroot, and it is in every respect equal to the costliest qualities of that article.

The uses of arrowroot in the sick-room are not only matter of tradition, but of every-day experience, and there can be but few persons who are not acquainted with its uses as an important ally to medical treatment.

BROWN AND POLSON'S CORN FLOUR claims to serve the same purposes, with at least equal acceptance and at considerably less cost, and therefore offers the facility of freer use to a larger public.

It has received from medical and scientific authorities the highest testimonials of its purity and serviceableness; it is largely used in Hydro-pathic and other Institutions throughout the Kingdom, and its export to all foreign parts has long given it a world-wide reputation.

BROWN & POLSON'S CORN FLOUR

FOR THE NURSERY.

In ordinary cases the only suitable food for young infants is milk: so soon, however, as some solid addition to the liquid food becomes desirable, there is nothing better for the purpose than BROWN AND POLSON'S CORN FLOUR. Its principal function is to supply heat; it also contributes to the formation of fat, so essential to life at all stages, but especially to the earlier.

Note.—Purchasers of Core Flour should insist on being supplied with BROWN AND POLSON'S.
